RESEARCH

Due to re-organisation of our product range we have a few end-of-line items in stock and so are therefore able to offer these at special discounted prices until the end of April.

But why stop there?

You may be considering upgrading your 35Mb MDFS tape streamer for one of our new 120Mb drives which allows multiple hard disc partitions to be backed up onto one tape and in one process. The older drives are now discontinued so we thought it would be a good idea to give you the opportunity to upgrade at the lowest possible price.

Please note that orders for goods listed in this promotion must be received before the end of April and that the minimum value of your order must be £20.00. Payment must be made in full within fourteen days of the receipt of invoice otherwise we are unable to supply at these prices.

Hard Discs

- | | | |
|---|-------------|----------------------|
| • 180Mb hard disc expansion for MDFS | was £980.00 | offer price £450.00† |
| • 180Mb hard disc for Nexus inc. installation | | offer price £500.00† |
